✓ UAE VAT invoice & VAT report	✓ Inventory & stock management
✓ Auto-backup for data safety	✓ Customer / supplier accounts
✓ Purchase entry & expense tracking	✓ Security audit / user activity log
✓ Barcode printing & weighing scale support	✓ Custom changes available

Why Choose FAWZIFIX POS?

FAWZIFIX POS is a practical supermarket and grocery billing system built for daily business operations. It is designed for small groceries, mini marts, supermarkets, cafeterias, and retail counters that need a simple but powerful billing solution without complicated setup.

The software is developed using **VB.NET** with **MySQL** and provided as a **single installer package**, including MySQL server setup support for easy installation. This helps shops start billing quickly with minimal technical work.

It is optimized for real counter use: fast barcode billing, clean invoice printing, stock tracking, VAT reports, purchase entry, customer and supplier management, auto-backup, and touch-friendly operation.

The image displays three screenshots of the FawziFix POS system interface.

Top Left: Sample Supermarket Dubai Login Screen
The login screen features the FawziFixPOS logo and the text: "Managed by FawziFix Solutions FZE, UAE", "www.fawzifix.com", and "Contact: +971547864349". Below the logo is a "Welcome Back" message and a login form with fields for "Email" and "Password", and a "LOGIN" button.

Top Right: POS SYSTEM Dashboard
The dashboard shows a sidebar menu with options: DASHBOARD, SALES & BILLING, INVENTORY & STOCK, ACCOUNTS / PARTNERS, REPORTS & ADMIN, SYSTEM SETTINGS, LOGOUT (F10), and EXIT SYSTEM. The main area displays "Welcome to FawziFixPOS" and the same contact information as the login screen.

Bottom: NEW BILL Interface
The "NEW BILL" interface shows a customer selection dropdown set to "Walking Customer" with a balance of "Bal: 0.00". Below this is a table of items being billed:

No	Code	Item Name	Unit	Price	Qty	Total
1	6281057000081	1 LT MILK FF 1 لتر حليب كامل اللب	PCS	1.05	1	1.05
2	6291003108792	125 ml cup chocolate 125 مل كوب شوكولاتة	PCS	24.00	1	24.00
3	6291003108815	125 ml cup strawberry 125 مل كوب سตรوبيري	PCS	18.00	1	18.00
4	6281057001118	170G YOGHURT FF 170 جرام يوغاردي كامل اللب	PCS	1.31	1	1.31

Below the table, there are buttons for "Search Cost (F5)", "Mark Item", "Cost Receipt (F3)", "Remove Item (Del)", "Receipt BB (F10)", "Clear All (ESC)", "Hold BB (F6)", "Other Charges", "History (F7)", and "Sales Return".

The bottom status bar shows the total amount: "AED 0.00" and "AED 114.25". It also includes payment options: CREDIT, CARD, CASH, and a "Total Pay: 0.00" / "Total Pay: 114.25" indicator.

Core Features

1. Fast POS Billing

Quick item scanning, barcode search, quantity/price edit, cash/card/credit billing, and save/share bill options.

2. Touch Friendly Interface

Large buttons and easy navigation for touchscreen systems at billing counters.

3. UAE VAT Ready

VAT-compliant invoices, sales VAT reports, purchase VAT reports, and export-ready reporting.

4. Inventory & Stock Control

Track products, stock movement, purchase entries, and supplier purchases efficiently.

5. Auto Backup & Security

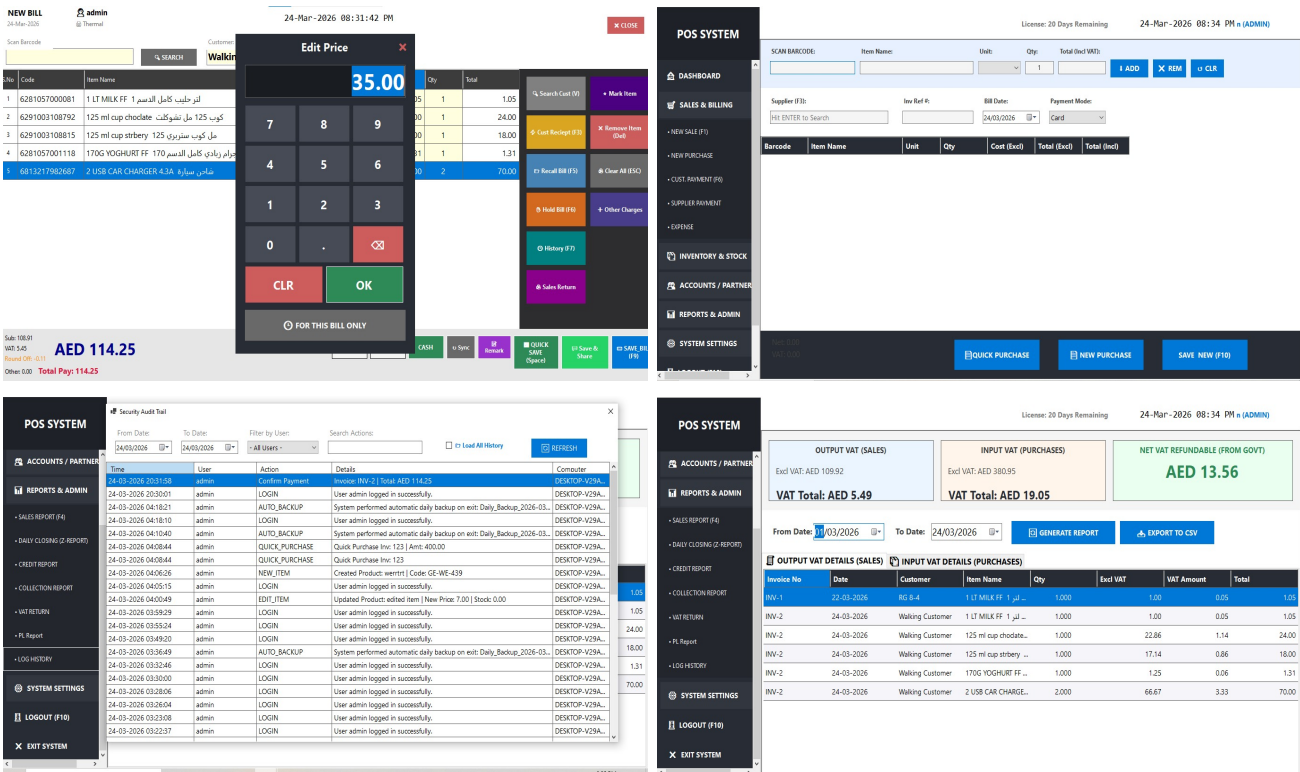

Automatic backup options and security audit trail to monitor user actions.

6. Hardware Support

Works with thermal printers, barcode printers, barcode scanners, and weighing scale integration.

7. Customization Available

Custom changes can be provided based on your business workflow and billing needs.

Best Suitable For

• Grocery shops	• Mini supermarkets
• Hypermarket counters	• Cafeterias & convenience stores
• Stationery / general stores	• Retail counters with barcode billing

Included in Delivery

- Software installation support
- MySQL database setup
- Basic printer configuration support
- Initial usage guidance
- Custom changes if required (based on scope)
